OBJECTIVE

MCA student aspiring to build a career as an NLP Engineer, with knowledge of Python, Natural Language Processing, and Machine Learning. Familiar with text preprocessing, feature extraction, and classification techniques. Interested in developing practical NLP applications and solving real-world language processing problems.

EDUCATION

Master of Computer Applications (MCA), JSS Academy of Technical Education, Noida — 2025–Present

Bachelor of Science (B.Sc.), CSJMU, Kanpur — 2021–2024

Senior Secondary (Class XII) — 2021
Unnao Public Inter College, UP Board — 81%

TECHNICAL SKILLS

Programming	Python, SQL
NLP Concepts	Text Preprocessing, Tokenization, Stop Word Removal, Stemming, Lemmatization
NLP Libraries	NLTK, Scikit-learn
Machine Learning	Classification, Naive Bayes, Logistic Regression
Feature Extraction	Bag of Words (BoW), TF-IDF
Python Libraries	Pandas, NumPy
Database	MySQL
Tools	Jupyter Notebook, VS Code, Git, GitHub

PROJECTS

Duplicate Question Pair Detection [GitHub] — *Python, NLP, Scikit-learn*

- Developing an NLP-based system to identify duplicate questions using the Quora Question Pairs dataset.
- Performed exploratory data analysis and text preprocessing.
- Implemented Bag of Words (CountVectorizer) for text feature extraction.

LANGUAGES

- English
- Hindi (Native Proficiency)
- Urdu
